A 41-YEAR LEGACY OF RV EXCELLENCE!

Over the past 41 years, National RV has grown from a small camper manufacturer to one of America's premiere builders of class "A" motorhomes. Loyal National RV owners have grown up right along with us, graduating from campers to mini motorhomes to luxury class "A" motorhomes.

That loyalty was earned through an unwavering commitment to quality, value and innovation.

Breaking Ground at National RV's new Perris, CA facilities, 1985.

San Fernando, CA home of Dolphin Camper Company, 1968-1971.

SINGLE LOCATION MANUFACTURING

National RV has experienced phenomenal growth over the past 41 years but has grown by reinvesting in its own products and facilities in sunny Southern California. Designing and building everything at a single location results in consistent quality across product lines, increased efficiencies and a stable, loyal workforce in the company's home community. When you buy a National RV, you'll never wonder whether it came from our "best" plant. They're all built in Perris, and they're all the best we can do.

ALWAYS LOOKING FORWARD

Four decades have passed since our humble beginnings, yet there is still so much to learn. Emerging technologies, demographics and customer wants are constantly shaping the idea of what a

motorhome should be. National RV's product development team is driven by customer feedback and the possibilities of new technologies. With a history of important innovations and patents already under our belt, National RV continues to research, develop, and invest in the latest manufacturing technologies to ensure ever increasing levels of quality and efficiency.

Sea Breeze

Since 1982 the Sea Breeze name has stood for value in recreational vehicles. "Value" denotes more than just price—its the ratio of what you get for your money. And for over 20 years, Sea Breeze owners have been getting the most for theirs! See the 2005 Sea Breeze and you'll discover an uncommon array of features and amenities, an unmatched level of fit & finish, and quality materials and methods. You'll discover the value that only Sea Breeze can offer.

SEA BREEZE KEY FEATURES

CHASSIS & DRIVETRAIN CHOICES

Choose between the Ford Super Duty or optional 2006 F53 chassis with Triton V-10 engine on Sea Breeze, or the brawny Workhorse® W-22 or W-24 chassis with powerful GM Vortec 8100 engine on Sea Breeze LX!

INTERIORS

- Professionally designed interior decors with rich, color-coordinated fabrics and fine oak cabinetry (maple optional on Sea Breeze LX)
- "Sandpiper Deluxe" residential style inner spring pillow top mattress
- Kustom-Fit® steel framed furniture
- Multiple entertainment features

HEATING & AIR CONDITIONING

- Dual 13,500 BTU low-profile ducted roof air conditioners (single unit on Sea Breeze model 1311)
- 35,000 BTU ducted furnace with a second 20,000 BTU furnace on select models

ELECTRICAL & PLUMBING SYSTEMS

- Onan® 5.5kW generator
- 50-Amp shore power cord and panel
- Optional 1,000 watt inverter/converter
- One-piece fiberglass shower
- Gas/electric water heater (6-gal. on Sea Breeze; 10-gal. on Sea Breeze LX)

EXTERIOR FEATURES

- Full gelcoat fiberglass exterior
- Five spacious multiple-slide floorplans in coach lengths from 31 to 37 feet

Today's Sea Breeze is the culmination of 41 years of engineering and refinement to satisfy the most discerning RV enthusiasts in the world—our customers.

SEA BREEZE'S 41-YEAR HERITAGE

TIMELINE

1964 Dolphin Camper Company is born and soon gains a reputation for quality and customer satisfaction.

1976 Dolphin invents the "micro-mini" motorhome, signaling its entry into the motorized RV marketplace.

1982 The Sea Breeze brand is introduced as a micro-mini motorhome, establishing Sea Breeze as a brand of value.

1986 Newly re-named National RV introduces its first class "A" motorhome with a new level of luxury and styling.

1993 The first Sea Breeze class "A" motorhome is introduced as a low-profile coach with bus-like styling.

1995 National RV enters the upscale towable RV market with the fabulous Sea Breeze Fifth Wheel.

2001 The Sea Breeze name adorns both diesel and gas class "A" motorhomes as well as Fifth Wheel towables.

2002 The Sea Breeze lineup is streamlined to re-affirm its core values; Sea Breeze LX debuts on the W-22 chassis.

TAKE A VIRTUAL FACTORY TOUR!

Building a Better Motorhome

Every RV manufacturer knows HOW to build a better motorhome; National RV chooses to DO IT. Fundamental concepts—steel is stronger than aluminum, block foam insulation won't sag like blanket insulation—determine the quality of a motorhome over the long haul. National RV chooses to adhere to those concepts. And with thousands of National RV products on the road and in use today (some for nearly 40 years now) the success of this strategy is evident in every happy owner. To learn more about what it takes to build a better motorhome, follow the virtual factory tour, which begins right here!

Computer Aided Design

Every motorhome begins as an idea. In our Engineering Department, skilled drafters use the latest Computer Aided Design software to model the coach in cyberspace, ensuring a proper design and true fit of every component **before** a single piece is machined or cut.

Prototyping and Toolmaking

All molds, jigs and other manufacturing fixtures are built and maintained in-house to ensure consistent quality from part to part. While National RV takes pride in its use of the latest technologies wherever possible to improve manufacturing quality and efficiency, certain tasks still require the hands-on attention of skilled craftsmen. National RV's toolmakers are an excellent example, crafting by hand the molds and jigs that will ensure the consistent style and quality of production pieces for months and years afterward.

SEA BREEZE SETS THE MARK

No longer are affordable motorhomes merely boxes on wheels. Whether you choose Sea Breeze or the upscale Sea Breeze LX, you'll bask in a level of comfort, convenience and style that other motorhomes in their class struggle to match.

GRANITE
A rich collection of grays and neutral colors and patterns for an inviting yet unpretentious interior.

Elegant light fixtures enhance the beauty of Sea Breeze's interior.

COGNAC

The light palette and playful patterns of the Cognac interior décor denote a space for comfort and fun.

FACTORY TOUR CONTINUED

Cold Hard Steel

All of the structural components of the motorhome—subfloor structure, sidewalls, floors, bulkhead and the arched roof—are fabricated from steel. Competitors may use aluminum, wood or other materials to save costs, but none are as strong as cold hard steel.

The Patented Duraframe®

In the chassis shop, the patented Duraframe® all-steel subfloor system is constructed on precision assembly jigs. Fabricated from carefully formed steel components, the Duraframe® is welded at every joint to provide unyielding strength over the long haul. The completed Duraframe® substructure is carefully lowered onto the motorhome chassis then the two are welded together to form a permanent, super-strong structure. Next, a generous coat of rust-inhibiting paint is applied to the entire assembly before it enters the main assembly line.

THIS IS A MOTORHOME?

Many thoughtful amenities help make Sea Breeze the most livable coach around. From usable storage space carved into every available nook to a wide array of entertainment features and options, you

may even forget that you're in a motorhome... until you remember that you're in a Sea Breeze.

SEA BREEZE LX 8375 • GRANITE • OAK

Cockpit seating swivels around to create comfortable conversation areas (soft-touch OptimaLeather cockpit seating is optional).

SEA BREEZE LX 8360 • COGNAC • MAPLE

Unique side hallway with picture window is a popular feature of the Sea Breeze 1350 and Sea Breeze LX 8360.

Computer workstation at the passenger seat includes a pull-out desk, phone/data, 12V and 110V receptacles.

27" flat screen TV plays from the DVD/VCR combo player, cable TV hookup, TV antennae or optional satellite dish.

SEA BREEZE LX 8375 • GRANITE • OAK

WonderBed sleeper sofa quickly converts to comfortable guest sleeping quarters.

Storage space is found in every conceivable location, including under the dinette seats (under-seat drawer featured on Sea Breeze LX 8311, 8321 and 8341).

Hallway storage unit found on select floorplans.

SEA BREEZE LX 8375 • OAK

SEA BREEZE LX 8341 • GRANITE • MAPLE

Bedroom slide-out provides a roomy bedroom with easy access to both sides of the true queen-size bed.

SEA BREEZE LX 8360 • COGNAC • MAPLE

20" flat screen TV in bedroom (optional on Sea Breeze, Standard on Sea Breeze LX).

Sandpiper deluxe is National RV's exclusive comfort pillow top mattress.

SEA BREEZE LX 8341 • GRANITE • MAPLE

One-piece fiberglass shower manufactured "in-house" at National RV to ensure quality, this shower is crafted of thick fiberglass with plenty of reinforcement for a sturdy, rigid feel. Step into a competitor's shower and you'll feel the difference as the lower quality plastic shower pan gives under your weight.

National RV Shower:

Competitors' Shower:

Spacious lavatory counters provide plenty of room to get ready for a day of adventure.

SEA BREEZE LX 8360 • COGNAC • MAPLE

Many different bathroom layouts are featured among the various Sea Breeze floorplans.

SUPERIOR CABINETRY CONSTRUCTION

Take a close look at the cabinetry inside a Sea Breeze motorhome. You'll find many thoughtful details that set Sea Breeze apart:

- Carpet lined kitchen cabinets reduce noise and protect your pots and pans during transit.
- Solid raised panel or flat panel cabinet doors and drawer fronts.
- Beautiful residential quality pulls, hinges and hardware.
- Telestrut hardware on upward opening overhead cabinet doors conveniently holds them open, then holds them in their positive catches when closed.
- Storage space everywhere such as a convenient vertical pull-out pantry (some models) and huge storage areas under the dinette seats.
- Accuride® steel ball bearing drawer glides provide 45 lbs. of smooth operating drawer capacity; compare that to competitors' 7 lb. draw capacity using plastic drawer glides. These are constructed using honored dovetail joints, not staples. Each drawer is finished with a solid wood drawer front for lasting beauty and structural integrity.
- Superior fit and finish with tight cabinet-to-wall fit; compare this to the large gaps covered with gimp molding on competitors' motorhomes—**there is no gimp molding in a Sea Breeze!**

45 LB. DRAW CAPACITY

GIMP MOLDING HIDING GAPS ON COMPETITOR'S MOTORHOME. THIS IS NOT A NATIONAL RV!

FACTORY TOUR CONTINUED

Cabinet Shop

In another part of the plant, cabinetmakers are busy crafting the wooden fixtures to be placed inside the coach. Computer Aided Design (CAD) provides precisely fit components, then skilled craftsmen bring them together into a sturdy, elegant finished product.

Assembly Line

Once it arrives on the assembly line from the chassis shop, the building of the coach "house" begins. The floor is laid, cabinets set into place, and all wiring and plumbing routed.

Tubular Steel Coach Body Frame

In the coach body shop, all coach body components—sidewalls, floors and roofs—are constructed with frames of tubular steel. Here is where precision pays off, as a properly fabricated wall frame will ensure a tight coach body structure over the long haul.

Now You're Cooking!

Throw away your "camping recipes!" With Sea Breeze's well-appointed kitchen, preparing great meals is as easy and convenient as in your home kitchen. An optional GE® convection microwave oven and your choice of refrigerators are sure to delight the chef in the family.

Beautiful, durable genuine Corian with backsplash and decorative edge detail is used in the kitchen counter tops of every Sea Breeze motorhome.

GE SpaceSaver microwave is standard equipment, GE convection microwave is optional.

High output cooktop with three burners and removable Corian cover.

Carpet-lined base cabinet keeps the pots and pans quiet when you're travelling.

Silverware drawer is now 1" deeper and features a Rubbermaid organizer.

Porcelain under-mount sink with wood cutting block sink cover.

A variety of kitchen layouts means there is one sure to please the chef in your family.

An efficient U-shaped kitchen is unique to the 1311/8311 floorplan.

Let Those Miles Melt Away

Since getting there is half the fun, we've made Sea Breeze's cockpit a place of comfort, convenience and performance. Long days behind the wheel will fly by as you drive in the comfort of the Sea Breeze cockpit.

Push-button transmission shifter featured on units built on W-24 chassis.

Rear vision camera with up-down pan (optional on Sea Breeze).

Sea Breeze LX with Workhorse chassis features an oversized steering wheel.

Sea Breeze with Ford Super Duty chassis features steering wheel-mounted cruise controls (dash for optional 2006 Ford F53 chassis not shown).

Aviation sun visor and optional side sun shade (Sea Breeze LX) keep the sun out of your eyes while driving.

Pantographic windshield wipers (left) clean a wider swath of windshield than typical radial windshield wipers (right) of similar blade length.

KUSTOM-FIT® SEATING

Built especially for National RV in our color coordinated fabrics, this cockpit and living area seating exceeds the comfort and quality of furniture in much more expensive "highline" motorhomes. The exclusive cold poured foam and fully welded steel frames will provide years of driving and relaxation comfort.

COLD POURED SEAT FOAM HAS A 10 YEAR WARRANTY!

Each cushion is formed as a single piece, molded in the correct shape. Competitors' seats are pieced together from blocks of foam which can come unglued and fall apart.

STEEL SEAT FRAME

Constructed of welded tubular steel for superior strength; carries a lifetime warranty.

96" driving space: The contoured fiberglass lower skirt effectively creates a 96" (standard width) driving space for a coach that boasts all of the living space of a 102" wide body motorhome. This makes it easier to maneuver through parking lots and tight spaces without striking curbs and other obstructions with the coach's lower body skirting.

FACTORY TOUR CONTINUED

A Cocoon of Insulation

The entire coach is literally surrounded in high density EPS block foam insulation. Each piece is precisely cut to fit between the members of the tubular steel frame then laminated into place. This insulation will never settle or sag like fiberglass blanket insulation.

Vacuum Lamination

All coach body panels are vacuum laminated for unequalled strength and durability. This process uses advanced adhesives and vacuum to bond the various input components into a single, inseparable unit.

Advanced Industrial Adhesives

National RV's lamination process uses specially formulated adhesives to permanently bond the components together into a single, inseparable piece. Computer controlled extruders precisely meter the adhesive on to the workpiece between each layer of the assembly. As the extruder passes, a fine mist of water is emitted over the adhesive as a catalyst. From this point, skilled workmen move swiftly to complete the assembly and move it into the vacuum table before the adhesive begins to cure.

AVAILABLE FLOORPLANS

1311/8311

Shown in standard configuration

1321/8321

Shown in standard configuration.

1341/8341

Shown with optional 12 cu. ft. refrigerator with ice maker, which deletes the pantry (available on Sea Breeze LX models only).

1350/8360

Shown in 8360 version. Delete equipment and length of coach within the gray dotted lines for 1350 version.

8375

Shown in standard configuration.

FOUR SEASONS COMFORT

Sea Breeze motorhomes are built for year-round livability.

DUAL IN-CEILING INSULATED AC DUCTS
Insulated for optimum efficiency, with adjustable registers to ensure even climate control or targeted climate zones

DUAL 13,500 BTU LOW PROFILE ROOF AC UNITS
Low profile units for better clearance (single unit standard on model 1311).

CENTRALLY LOCATED MONITOR PANEL
With automated climate controls.

35,000 BTU DUCTED FURNACE
With additional 20,000 BTU furnace on 8360 and 8375.

A COCOON OF INSULATION
The entire coach is enveloped in highly efficient EPS block foam insulation, laminated right into the sidewalls, floor and ceiling.

OPTIONAL FAN-TASTIC® VENT
With thermostat and rain sensor for automatic coach ventilation.

DUAL PANE WINDOWS
Insulated and tinted for UV protection. Standard on Sea Breeze LX; optional on Sea Breeze.

FACTORY TOUR CONTINUED

In the Basement

Stylishly contoured molded fiberglass compartment doors flank either side of the coach. EPS foam insulation runs throughout the basement floors, ceiling and doors. Paddle latches and gas charged struts aid in opening compartment doors with ease.

Reap What We Sew

National RV's professionally designed interior décors come to life in the upholstery shop, where bolts of opulent fabrics are transformed into richly decorated window treatments, throw pillows, bedding and more.

The Main Assembly Line

The heart of National RV's production facilities is the main assembly line. Here, a never-ending procession of motorhomes makes its way *sideways* through the plant on a specialized rail system. A veritable beehive of activity, the main line is where most of the coach's manufactured components are installed—name brand appliances, comfortable furnishings, interior lighting and fixtures. Near the end of the line, special UV-resistant graphics are applied and a nearly complete new motorhome emerges.

FULL FEATURED INSIDE & OUT!

Walk around a Sea Breeze and you'll discover an uncommon attention to detail. Open a storage compartment door and see through the cavernous storage bays, all the way to the other side. Run a hand along the sleek, molded fiberglass body panels and feel the quality that sets Sea Breeze apart from the others.

A&E awning with metal cover is standard on Sea Breeze LX.

High-mounted mirrors on Sea Breeze LX allow un-obstructed walk-around and "overview" of adjacent traffic lanes.

Halogen automotive headlights provide a broad pattern of bright, white light.

FULL-FEATURED ELECTRICAL SYSTEM

50-amp service & cord provide plenty of shore power for comfortable living. Power cord plugs into sidewall receptacle for easy hookup and storage.

Optional 1,000 watt inverter/converter with remote on/off switch.

Two 6V deep cycle house batteries and one 12V maintenance-free chassis battery, located in convenient entry step battery compartment.

Remote battery disconnect switch allows quick, convenient isolation of house batteries to prevent power drain.

Onan® generator: The reliable Onan® 5.5 kW generator provides plenty of power no matter how far you are from civilization.

Resettable breakers Control of Sea Breeze's advanced house electrical system is at your fingertips with an ingenious new breaker panel conveniently located inside the coach. Now, rather than having to carry—and find—extra fuses whenever a circuit is overloaded, simply push the breaker to reset it. All circuits are clearly labeled for easy identification.

Wall Switches for ceiling lights are centrally located to make turning ceiling lights on or off more convenient (Sea Breeze LX only).

4-Point hydraulic leveling jacks are more reliable and provide better stability than 3-point and pneumatic leveling systems.

Triple entry step is featured on Sea Breeze LX motorhomes.

Cavernous storage bays provide plenty of cargo space for your gear.

Slide-out topper awnings keep runoff and debris off of the slide-out box.

Flush-shut slide-out seals provide a sleek appearance and reduced wind noise.

Valve extensions make the job of checking tire pressure quick and easy.

Pantographic hood hinges and "finished" backside of hood speak to National RV's attention to quality and detail even in seldom-seen areas of the coach.

FULL-FEATURED PLUMBING SYSTEM

All plumbing controls clearly labeled, intuitively arranged and housed in a molded, easy-to-clean compartment with drainage basin.

Inlet to pump allows drawing fresh water from any external tank or vessel. Inlet is also provided for pressurized water hookups.

Thoughtful conveniences include an outside shower and soap dispenser.

Color-coded water lines throughout the coach allow for easy identification.

Three water pump switches conveniently located at kitchen, bathroom and plumbing compartment.

Easy access to engine maintenance points.

BASEMENT COMPARTMENTS

Sea Breeze's storage compartments rival those of motorhomes costing thousands more, and far surpass any competitors in Sea Breeze's price range.

FIBERGLASS DOORS

The industry standard is to save thousands of dollars at your expense by using cheap, plain looking flat panel compartment doors. By contrast, Sea Breeze's compartment doors are hand made with a stylishly contoured, molded fiberglass shell. Unlike the industry standard flat panel doors, these doors curve inward closer to the road to avoid rocks, curbs and other road hazards. EPS block foam insulation is laminated into the door, which is finished with a durable stainless steel piano hinge and convenient paddle latch.

LAMINATED FLOORS

Sea Breeze's storage compartment floors are made with the same vacuum lamination process as the sidewalls, roof and coach floor. This includes sturdy 1/4" decking and thick EPS block foam insulation. Compare Sea Breeze's storage compartments to the industry standard rotocast plastic "tubs" that are cheaper, weaker and provide no insulation value.

GAS CHARGED STRUTS

Dual gas charged struts make loading and unloading gear a breeze. They lift the door for you, then hold it up out of your way.

FACTORY TOUR CONTINUED

CNC Precision

National RV has been at the forefront of implementing new technologies in RV manufacturing. An excellent example is the CNC router. This advanced machine uses a computer-numerically-controlled (CNC) router to precisely cut windows and other openings in the sidewalls. Routed-out pieces aren't wasted—they're further shaped into insulated, sound-deadening panels for our heated basement storage compartments.

It's Starting to Look Like a Motorhome

By the time the sidewall is set into place on a National RV motorhome, many man- and machine-hours as well as the best materials and methods have already contributed to creating the sturdiest and all around best-performing motorhome sidewalls available. National RV's unique method for attaching the sidewall places no shear forces on the fasteners. Rather, the weight of the sidewall rests upon a sturdy ledge of steel. Screws are used to hold the wall laterally to the edge of the coach floor, but do not bear the weight of the sidewall and roof assemblies.

WORKHORSE/DURAFRAME CHASSIS SYSTEM

A great home needs a solid foundation, and that's exactly what Sea Breeze's Workhorse or Ford chassis and National RV's patented DuraFrame technology provide. Together they form the DuraFrame Chassis System, the strongest platform around on which to build a fully equipped multiple slide-out luxury motorHOME.

WORKHORSE W-SERIES CHASSIS

Sea Breeze LX is built on the awesome Workhorse W-Series chassis, integrated into the Duraframe Chassis System. The W-Series chassis blurs the lines between gas and diesel performance. With brawny 22,000 lb. and 24,000 lb. GVWRs (for the W-22 and W-24, respectively), these chassis permit the largest, most luxuriously equipped gasoline motorhomes ever.

GM Vortec 8100 Engine

- 8.1L displacement
- 340 peak HP @ 4,200 RPM
- 455 lbs./ft. Peak torque @3,200 RPM

FORD SUPER DUTY & F53 CHASSIS

Sea Breeze motorhomes feature the proven Ford Super Duty or optional 2006 F53 chassis. Built and backed by one of the world's largest, most innovative automotive manufacturers, the Ford chassis features legendary performance and longevity.

- 6.8L Triton V-10 Engine with 310 peak horsepower (362 HP for optional F53).
- Ford 4R100 4-speed automatic overdrive transmission (5-speed TorqShift automatic transmission for optional F53).

Low-set engine allows a very short engine cover, resulting in a more open, diesel-like cockpit area.

A tall, diesel-like stance and high frame rails permit deep bus-style basement storage compartments.

22.5" wheels and tires fill up Sea Breeze's wheel wells for a formidable appearance.

THE DURAFRAME CHASSIS SYSTEM

The Duraframe Chassis System is a marriage of National RV's patented Duraframe® all steel subfloor technology and the Ford or Workhorse chassis. The Duraframe® Chassis System is specifically engineered to provide the strength that today's multiple slide-out motorhomes require—all within the chassis system itself. Other manufacturers rely on

the coach sidewalls to absorb much of the stresses of traveling and carrying the coach's weight. But the multiple slide-outs of today's luxury motorhomes blow huge holes in that strategy. That's why the Duraframe® Chassis System builds all of the strength necessary to support the coach into the chassis system itself—below the

floor line and below the slide-outs. Rigidly fabricated of welded tube and plate steel, the Duraframe® Chassis System provides all of the necessary structural rigidity to the coach while also enabling huge bus-like pass through basement storage bays.

5,000 lb. tow hitch:

Sea Breeze's Class III hitch is anchored directly to the all-steel Duraframe® Chassis System structure.

Rigid-mounted components

like the LPG tank, generator and other equipment are rigidly anchored in the cold hard steel of the Duraframe® Chassis System.

Tubular steel risers made of thick-wall rectangular steel tubing lift the coach floor above the chassis rails to provide deep storage bays with pass-through versatility.

Flush-floor slide mechanism

technology provides residential livability. Precise rack and pinion slide mechanisms are attached directly to the Duraframe® for superior support.

ALWAYS CHECK THE CARGO CARRYING CAPACITY

When shopping for a motorhome, be sure to check the coach's Cargo Carrying Capacity (CCC). This is the final calculation for the amount of cargo you may safely carry in the coach, which is the Gross Vehicle Weight Rating (GVWR) of the chassis, minus the weight of the coach, passengers, holding tanks, etc. Make sure the manufacturer has accurately figured the weights in the calculation, including the number of passengers. Careful inspection may reveal that many competing motorhomes leave very little room for Cargo Carrying Capacity, sometimes resulting in CCC that is insufficient for your cargo carrying needs.

At National RV, we understand that bringing the comforts of home along with you is important to enjoying the RV lifestyle. That's why we've set minimum standards for sufficient Cargo Carrying Capacity in every 2005 motorhome we build. If the CCC is too low, we build the coach on a higher GVWR chassis to maintain this standard. That's why Sea Breeze motorhomes are built on a variety of Ford and Workhorse chassis. Though the cost of a higher GVWR chassis may be slightly higher, we believe it is well worth the price for the peace of mind of having enough Cargo Carrying Capacity.

Check our competitors' CCC...see if it measures up to the standard of a Sea Breeze.

SUPERIOR COACH BODY CONSTRUCTION

National RV uses an advanced vacuum lamination process and the highest quality materials in the construction of the fully insulated roof, walls and floor.

TUBULAR STEEL FRAME

Stronger and less susceptible to work fatigue than aluminum and won't decay like wood.

CROWNED ROOF

The best RV roof in the business is built with arched tubular steel roof trusses. The crowned roof has radius edges for superior runoff.

FIBERGLASS ROOF SKIN

A seamless barrier against moisture; more durable and easier to maintain and repair than rubber or aluminum.

1/4" STRUCTURE-WOOD®

This oriented strand board (OSB) from Weyerhaeuser carries a 25 year warranty and is used for both the roof deck and interior ceiling panel.

EPS BLOCK FOAM INSULATION

Used throughout the coach in every laminated coach body component. This foam won't settle or sag like spun fiber-glass insulation. Insulation is up to 6" thick in the roof, and completely surrounds the coach living areas. It's even in the floor!

1/4" THICK MAHOGANY PLYWOOD INTERIOR WALL PANEL

A thick, firm interior wall surface that's tough enough to anchor our cabinetry...and whatever pictures or fixtures you care to hang, wherever you want to hang them. Competitors' thin interior wall surfaces "give" when you push them, revealing their weakness beneath the surface, with reinforcements built in only where necessary to attach cabinets. Our interior wall surfaces are 1/4" thick and rigid throughout!

HIGH GLOSS GELCOAT EXTERIOR

Exterior sidewall surface is made of a high gloss fiberglass gelcoat that is *molded into* a luan backing then vacuum laminated to the sidewall structure. The result is excellent resistance to delamination and long-lasting great looks.

A BETTER WAY TO MOUNT A SIDEWALL

The National RV sidewall is placed *on top* of the steel floor framework. Some manufacturers use screws to fasten the sidewall horizontally to the edge of the floor. This places the fastening screws under an enormous amount of shear force, and the sidewall—and everything above it, such as the roof—is literally being held up by a few small screws! With the National RV method, the weight of the sidewall rests on the steel framework of the floor. Which would you prefer?

FACTORY TOUR CONTINUED

Hand Molded Fiberglass

Front and rear caps, compartment doors and one-piece showers are manufactured in National RV's state-of-the-art fiberglass production facilities. Pure unfilled resins and quality glass fiber are applied, with extra reinforcement applied in critical areas.

Whiter Whites

The gleaming high gloss gelcoat of the fiberglass components will become the beautiful exterior finish of the motorhome. Extra care is taken in the fiberglass finishing shop to buff each component to a mirror finish.

Cap Placement

Front and rear caps are fully loaded with grills, light fixtures and other components before being delivered to the assembly line. Skillful coordination of manufacturing processes are required to ensure a steady flow of components to the line from assembly areas throughout the plant. Once the caps are in place, the motorhome "shell" is complete—with the motorhome surrounded in brilliant, protective, stylishly molded fiberglass. Further up the line, windows and doors are installed as finish work continues on the coach interior and exterior.

BUYING A NATIONAL RV IS JUST THE BEGINNING

When you buy a Sea Breeze motorhome, you become a member of the National RV family.

Through a wide variety of after-the-sale service and support benefits

to supporting our Owners Club and local club rallies and functions, National RV strives to foster a close, mutually beneficial relationship with the owners of our products.

Factory service centers: In addition to hundreds of trained service technicians at dealers throughout North America, National RV operates large Factory Service and Parts Distribution Centers in California and Florida. This ensures that the expertise and parts to fix any problem are readily available either at your local dealer or one of these centers.

Emergency roadside assistance:

National RV provides a complimentary first year of coverage by Coach Net®, America's leading provider of 24-hour emergency roadside assistance. In addition to emergency towing, Coach Net® provides free trip planning, service scheduling assistance, travel maps, coverage for your towed vehicle and much more.

Backed as well as they're built:

National RV stands behind its product with a fully staffed Owner Services department ready to assist you over the phone toll-free. National RV also boasts one of America's best RV warranties, including a **5 year/unlimited miles** structural warranty and one year/unlimited miles house warranty. Please see the warranty booklet for specific information.

Parts distribution centers

on both coasts ensure fast, accurate parts delivery no matter where you are in National RV's vast network of factory authorized service centers.

At National RV, we're fanatics for the RV lifestyle! We promote the RV lifestyle and camaraderie among our owners

through the National RV Owners Club and local chapters. Membership in the Club is complimentary with your purchase of a National RV.

Getaways are the highlight of National RV Owners Club membership. These well-organized events are a great opportunity to meet other RV enthusiasts. GetAways are held throughout the year at interesting locations across the United States. Quality entertainment, great food and fun activities are all part of every GetAway. You may also seek the assistance of National RV service technicians, tour the latest National RV products and hear the latest news from company officers.

Special edition Getaway T-shirts have become coveted mementos from every Getaway event.

FACTORY TOUR CONTINUED

Quality Assurance

Of course, no National RV hits the road without first undergoing a thorough battery of quality checks. In the rain test booth, every coach is subjected to a simulated rainstorm—with all of the slide-outs extended!

Ready for Delivery!

Finally, quality auditors test every component of the coach for proper operation. After a thorough cleaning, the interior fabrics—carpets, seats and furniture—are covered in protective plastic to ensure delivery of a clean, tidy motorhome.

Seeing is Believing

We invite you to come to the factory and see for yourself the quality workmanship that goes into every National RV. Here you can walk the assembly line and witness the process as raw steel, fiberglass and other components are skillfully crafted into a complete, finished motorhome.

Plant tours are conducted daily from the main entrance of our manufacturing facilities at 3411 N. Perris Boulevard in sunny Perris, California.

THE ISLANDER

The **Islander newspaper** is published for the benefit of all National RV owners. A subscription to the **Islander** is included with

National RV Owners Club membership, which is free for all owners of National RV products:

- **Product Spotlights**

Regional Clubs

Many regional clubs cater to National RV owners in their local areas. National RV is committed to supporting these clubs through the *Islander Newspaper*, support for local rallies and events, and close cooperation through the *GetAways* and the National RV Owners Club. To find a National RV affiliated regional owners club near you, please visit the National RV website at www.nationalrv.com

FEATURES AND SPECIFICATIONS

	■ = Standard Equipment	○ = Optional Equipment
EXTERIOR & COACH BODY CONSTRUCTION		
■ ■	Duraframe® patented steel sub floor construction	
■ ■	Steel framed laminated floor	
■ ■	Steel framed crowned laminated fiberglass roof	
■ ■	Steel framed laminated sidewalls with high gloss fiberglass exterior	
■ ■	Front and rear molded high gloss fiberglass caps and integrated bumper assembly	
■ ■	Full panoramic tinted windshield	
■ ■	Soft fabric ceiling material	
■ ■	Electric slide-out room with overhead cabinets (flush floor on lounge slide models only)	
■ ■	Insulated fiberglass exterior storage compartment doors with integrated paddle latches and gas struts	
■ ■	Steel framed exterior storage compartment with insulated bottoms	
■ ■	Lighted storage compartments and service area	
■ ■	Exterior assist handle	
■ ■	Full height interior assist handle	
■ ■	Aluminum rear ladder	
■ ■	Awning rail/rain gutter with drip spouts	
■ ■	Automotive undercoating	
■ ■	Steel insulated front bulkhead	
■ ■	Custom vinyl exterior graphics with two available color schemes	
COCKPIT FEATURES		
■ ■	Big button AM/FM cassette stereo and CD with four speakers	
○ ○	Multi-disc CD changer	
■ ■	Driver and passenger reading lights with switches	
■ ■	Custom designed dash with full gauge package	
■ ■	Convenience tray	
■ ■	Audible turn signals	
■ ■	Pantographic windshield wipers	
■ ■	Power steering	
■ ■	Cruise control	
■ ■	Tilt steering wheel	
■ ■	Oversized steering wheel with power steering	
○ ■	Motorized rear vision system with built-in microphone	
○ ■	Pre-wired for a back-up camera	
○ ■	Motorized rear view camera	
■ ■	Overhead dash fans (2 speed)	
■ ■	Low-mounted power heated convex rear view mirrors	
■ ■	Power heated double convex rear view mirrors	
■ ■	Passenger work station with 12V/120V receptacle and phone jack in console	
■ ■	Acrylic sun visors	
■ ■	Aviation style sun visors	
○ ○	Manual driver/passenger side sun shade	
■ ■	(4) Point hydraulic leveling jacks with dash mounted controls	
■ ■	Generator hour meter and auxiliary start switch on dash	
■ ■	Wrap around privacy curtain with easy reach wand	
■ ■	Exterior temperature sensor	

APPLIANCES & ACCESSORIES		
■ ■	6 cu. ft. double door refrigerator	
○ ○	8 cu. ft. double door refrigerator with icemaker	
■ ■	8 cu. ft. double door refrigerator	
○ ○	10 cu. ft. double door refrigerator with ice maker	
○ ○	12 cu. ft. four door Norcold refrigerator with ice maker (delete pantry) N/A 8311, 8321 AND 8341	
■ ■	High output three burner cooktop with drawers below with flush mount Corian® range cover	
○ ○	High output three burner cooktop with range/oven and flush mount Corian® range cover	
■ ■	GE® SpaceSaver microwave oven with built-in light and fan	
○ ○	GE® SpaceSaver convection microwave oven with built-in light and fan	
■ ■	Cable TV hook-up and multiple telephone jacks	
■ ■	TV antenna	
■ ■	RCA® 27" flat screen TV in cockpit	
○ ○	RCA® 20" flat screen TV with front A/V jacks in bedroom	
■ ■	RCA® DVD/VCR combo	
○ ○	2-way radio with (4) handsets and built-in rechargeable flashlight	
○ ○	Exterior entertainment package: Includes 19" stereo TV, AM/FM stereo with CD on swivel base located in an exterior compartment on full-extension slide tray with two fixed speakers mounted by the exterior TV	
○ ○	Home theater entertainment package: Includes an RCA® DVD digital receiver and speaker/subwoofer system	
■ ■	Video control box with antenna boost	
○ ○	Pre-wired for Winegard® satellite dish	
○ ○	Winegard® satellite dish	
○ ○	Pre-wired for Kingdome® satellite dish	
○ ○	Kingdome® satellite dish	

FURNITURE		
■ ■	Kustom Fit® vinyl driver seat with swivel base	
■ ■	Kustom Fit® vinyl passenger seat with swivel base	
○ ○	Kustom Fit® vinyl driver seat with 6-way power	
○ ○	Kustom Fit® soft touch OptimaLeather® cockpit seating package: Includes a soft touch OptimaLeather® 6-way power driver seat with swivel base and a soft touch OptimaLeather® manual passenger seat with swivel base	
■ ■	Kustom Fit® Wonder-Bed® fabric sleeper sofa with slide-in armrests	
■ ■	Kustom Fit® freestanding vinyl swivel recliner chair with footrest N/A 1311 AND 8311	

INTERIORS		
■ ■	Throughout Coach	
■ ■	Oak paneling and doors	
○ ○	Maple paneling and doors	
■ ■	Telestrut hardware on overhead doors and positive catches on others	
■ ■	Drawers with ball bearing roller guide design	
■ ■	Cockpit	
■ ■	Floormats	
■ ■	Living Area	
■ ■	Booth dinette	
■ ■	Booth dinette with slide-out storage drawers	
■ ■	Plush carpet with deluxe pad	
■ ■	Hutch and overhead with beveled mirror 1350 AND 8360 ONLY	
■ ■	Day/night shades with designer valances	
■ ■	Solid raised panel overhead cabinet doors and flat panel base cabinet doors	

■ ■	Kitchen Area	
■ ■	Slide-out pantry N/A 1341, 1350 AND 8341	
■ ■	Corian® kitchen countertop with Corian® flush mount stove cover	
○ ○	Corian® countertop extension N/A 8375	
■ ■	Beveled mirror above galley backsplash	
■ ■	Porcelain sink with wood cutting block sink cover	
■ ■	Wastebasket	
■ ■	Designer vinyl flooring	
■ ■	Venetian mini-blind with valance N/A 1311, 8311	
■ ■	Rubbermaid® silverware organizer tray	
■ ■	Bath Area	
■ ■	Designer vinyl flooring	
■ ■	Decorative glass shower door	
■ ■	Laminate lavy top with decorative edge	
■ ■	Medicine cabinet	
■ ■	Bedroom Area	
■ ■	Plush carpet with deluxe pad	
■ ■	Day/night shades with designer valances	
■ ■	Cedar lining in wardrobe and bed storage compartment	
■ ■	Wardrobe with mirrored sliding doors, laundry hamper, shelf and doors below N/A 1350	
■ ■	Wardrobe with mirrored sliding doors, shelf and doors below (laundry hamper built-in on most models)	
■ ■	Bedsprad, pillow and shams	
■ ■	Large mirror on rear wall	
■ ■	Vanity cabinet with laundry hamper 8360 ONLY	
■ ■	Slide-out queen bed with storage compartment	
■ ■	"Sandpiper Deluxe" residential-style pillow top mattress (60"x80")	

ELECTRICAL SYSTEM & LIGHTING		
■ ■	50 Amp MagneTek® solid state power converter and charger	
○ ○	1,000 watt inverter/converter	
■ ■	50 Amp 120V distribution panel	
■ ■	50 Amp shore power cord with user-friendly exterior wall receptacle	
■ ■	12V re-settable push button house circuit breaker distribution panel	
■ ■	5.5 kW Onan® Marquis series generator	
■ ■	(2) 6V deep cycle house batteries	
■ ■	(1) 12V chassis battery	
■ ■	Battery disconnect switch for house batteries	
■ ■	Systems monitor panel	
■ ■	Porch light with interior switch	
■ ■	120V patio receptacle and phone jack	
■ ■	Recessed fluorescent and incandescent lights in ceiling	
■ ■	Recessed fluorescent lights in ceiling with wall mounted switches	
■ ■	Designer light fixtures in living and bedroom areas	
■ ■	Cosmetic light in bathroom	
■ ■	Three water pump switches (kitchen, bath and service compartment)	
■ ■	Battery voltage meter in monitor panel	
■ ■	GFI protected electrical circuit	
■ ■	Courtesy light at entry-door switch panel	

PLUMBING & LPG SYSTEMS		
■ ■	Coach Exterior	
■ ■	Heated systems compartment with easy access	
■ ■	On demand water system and water pump	
■ ■	Holding tank rinse system (black tank only)	
■ ■	Winterization antifreeze inlet to pump	

■ ■	Outside shower	
■ ■	Water heater bypass valve	
■ ■	Pressurized water fill with integrated regulator	
■ ■	6 gallon LPG water heater with electric and direct spark ignition	
■ ■	10 gallon, quick-recovery water heater with direct spark ignition (gas/electric)	
■ ■	Kitchen Area	
■ ■	Single lever white faucet with side sprayer	
■ ■	Bathroom Area	
■ ■	One-piece fiberglass shower	
■ ■	Dual lever brass-plated shower faucet, brass-braided hose and brass-plated head	
■ ■	Dual lever brass-plated lavy faucet	
■ ■	Single lever brass lavy Phoenix faucet	

SAFETY FEATURES		
■ ■	Daytime running lights	
■ ■	Driver and passenger three point seatbelts	

STANDARD SEA BREEZE CHASSIS AND DRIVETRAIN		
FORD® SUPER DUTY CHASSIS SPECIFICATIONS		
■ ■	20,500 lb. GVWR (models 1311 and 1321)	
■ ■	22,000 lb. GVWR (models 1341 and 1350)	
■ ■	Goodyear® RV 245/70 R19.5F tires	
■ ■	19.5" steel wheels with stainless steel liners	
■ ■	4-wheel disc brakes with hydro-boost and ABS	
■ ■	5.38:1 drive axle ratio	
■ ■	75 gallon fuel capacity	
■ ■	5,000 lb. Class III hitch	
■ ■	130 amp alternator	
■ ■	3 years/36,000 miles warranty	

FORD® TRITON V-10 ENGINE SPECIFICATIONS		
■ ■	6.8 liter displacement	
■ ■	310 HP @ 4,250 RPM peak horsepower	
■ ■	425 lb./ft. @ 3,250 RPM peak torque	
■ ■	3 years/36,000 miles warranty	

FORD® 4R100 TRANSMISSION SPECIFICATIONS		
■ ■	4 speed automatic with overdrive	
■ ■	3 years/36,000 miles warranty
