

DOLPHIN

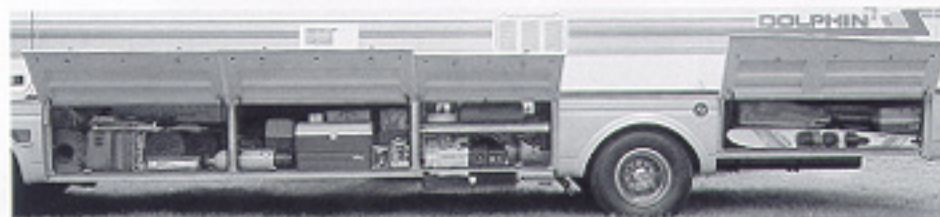

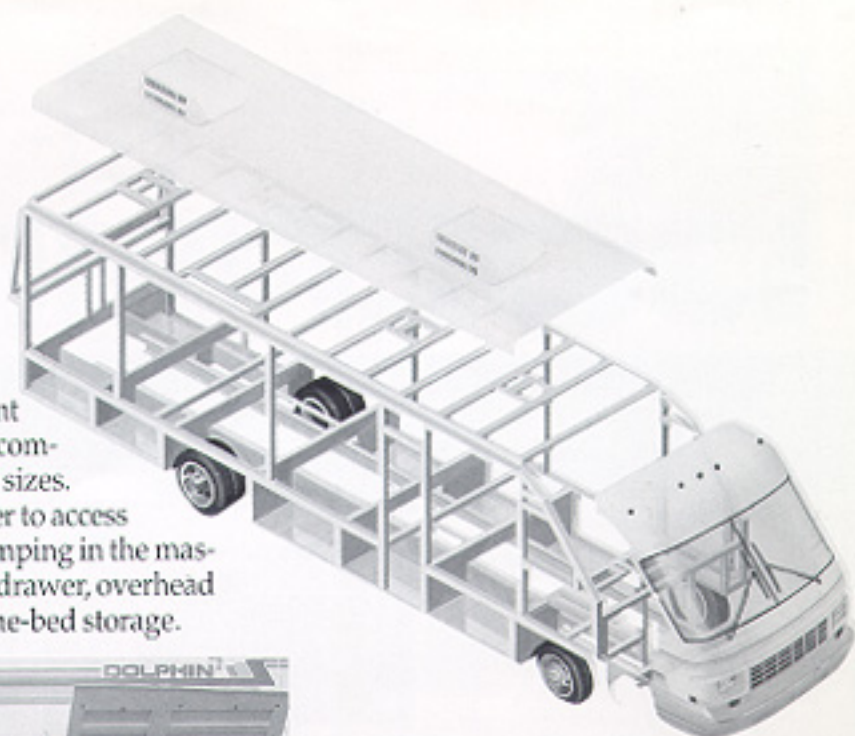

CLASS A MOTORHOMES

DESIGNED TO TAKE YOU FARTHER

Superior Construction. Dolphin's one-piece fiberglass roof eliminates leakage and facilitates drainage. An additional highlight is steel roll cage construction with sturdy structural members in the floor, sidewalls and ceiling. Further, sub-floor trusses are made of galvanized steel for enduring strength and durability.

Expansive Storage. Your Dolphin can carry personal belongings, a large wardrobe, sports equipment and much more. Expansive exterior storage areas accommodate a wide assortment of cargo of all shapes and sizes. Secure, lockable doors open with the touch of a finger to access lighted, carpeted compartments. And there's no skimping in the master suite, either. Our Class A bedrooms boast ample drawer, overhead cabinet and wardrobe space, plus generous under-the-bed storage.

FLOOR PLANS

Seven spacious floor plans offer a choice of twin or island queen beds. Twin-bed models have a nightstand with storage below—and a shirt wardrobe at the end of each bed. Island queen bed models feature hydraulic lift struts and twin night stands for extra large storage below, plus overhead closets on both sides.

COMPLETELY NEW FOR THE NINETIES

Dolphin's dramatically contoured motorhome is a true benchmark in design. This stylish, spacious vehicle offers expansive storage, plus inviting interiors of unsurpassed comfort and quality. New this year are the convenience of an exterior shower and the security of front and rear docking directional lights.

Additional highlights of this innovative Class A are exciting designer colors, wide aisles with luxurious plush carpeting, soft indirect lighting, and raised oak panel cabinet doors with brass hardware. Fact is, all Dolphins have a complement of standard appointments found only on much more expensive RVs.

For instance, there are amenities galore in the generously sized bath area—a lavatory, flush toilet, custom cabinetry, lighting, power vents, and plenty of room to move about.

Our large, fully equipped galleys bring out the best in any chef. The convection microwave oven and four-burner cooktop save time in the kitchen, while large stainless steel sinks simplify clean-up. The eight cubic foot double-door Dometic refrigerator has plenty of space for provisions. And Dolphin's versatile dinettes easily convert into extra sleeping accommodations, while providing additional storage space under the seats. (Most models)

At the end of an enjoyable day of travel, you'll rest in the lap of luxury in your Dolphin master suite. Your choice of pleasant accommodations includes twin bed or walk-around queen bed floor plans.

Model 3100 Dolphin's large wrap-around windshield provides panoramic views. A low-profile dash and engine cover contribute to the spaciousness, as does the single-level floor.

Model 3800 Bath Exclusive to this model is a generously-sized glass shower enclosure, framed in elegant brass.

24-Hour Toll Free Help Line
As a Dolphin original owner, you can call toll-free, anytime, for expert advice on any problem you might have. (Good for one year from date of purchase. Non-transferrable program can be extended for a nominal fee.)
