

Quality Motorhomes From

NATIONAL R.V.

Since 1963

DOLPHIN

GAS & DIESEL BUS

The newly designed Dolphin series of full basement motorhomes delivers high-line bus styling at very attractive prices.

With extensive amenities, spacious interiors and plenty of storage, these luxurious RVs are great on long trips and the perfect choice for full-time travelers. Typical of National RV products, our value-packed motorhomes offer an extensive list of quality features that invite comparison.

Even a casual glance shows Dolphin's uniqueness. This dramatically contoured motorhome features a bus-style front end with a newly designed full fiberglass cap. One-piece fiberglass Mende board sidewalls grace this unit. Sculptured fiberglass baggage doors open on loads of outside storage in easily accessed lighted compartments.

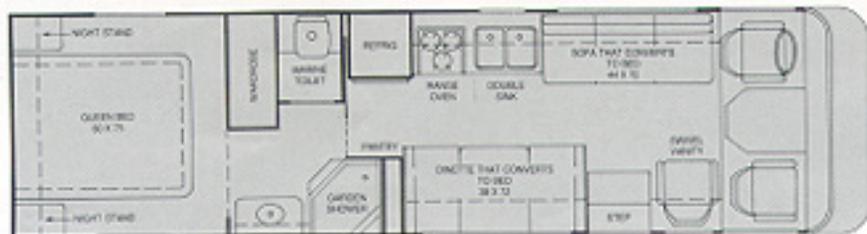

Dolphin's panoramic wrap-around tinted windshield - the largest in its class - provides commanding views of the road and campsite from a space-age cockpit. Power mirrors are mounted high to contribute to the clear field of vision.

For effective climate control, Dolphin's one-piece rubber roofs have a full 6" of insulation, and floors incorporate our exclusive double insulation. On top of that, National RV builds in an insulated sandwich in the cargo bin. Insulated doors in this large pass-through storage compartment are fitted with a gas shock lift system for simple raising and lowering. Another important convenience advantage comes from grouping the sewer hose, water hose, shower and dump valves in a single compartment for easy cleaning and access.

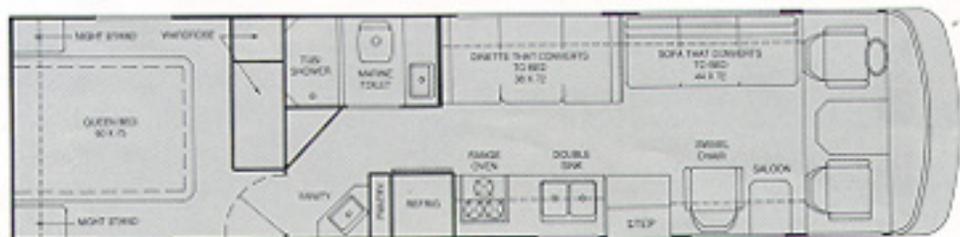

National RV quality construction highlights include a galvanized steel floor truss system for more strength and corrosion resistance than competitive all-wood or wood and raw steel designs. The roof is 6" thick, allowing for full air flow from Dolphin's dual ducted air conditioners.

Dolphin buses come in a choice of sizes with gas and diesel engines. Each comes complete with both cruise control and a tilt steering wheel for your motoring convenience. See them at your Dolphin dealer soon so you can experience our quality first-hand.

GAS MODEL FLOOR PLANS

Model 432

Model 434

CONSTR

National RV's solid construction bottom. Case in point: We build in more competitive products. Our roof beams to 36" or 48" for others. Roofs are made and thoroughly insulated for comfort.

Chassis construction incorporates a heavy galvanized sub floor installed directly on the frame. Wood is never used!

Extensive undercoating is applied to each unit to provide properly sealed compartments and to enhance sound deadening.

Custom designed furniture receives its finishing touches in our factory to guarantee high levels of quality and comfort.

National RV's modern facilities are designed for smooth, error-free automated production every step of the way.

delivers a superior RV from top to bottom. The steel cross members than most are on 18" to 24" centers, compared to 12" centers of rubber for leak-proof protection. Additional advantages follow...

State-of-the-art fiberglass manufacturing holds to tight tolerances and achieves the highest levels of quality control.

After being aligned on the most advanced electronic equipment, every National RV motorhome is road tested for ride and handling.

Each unit is thoroughly flood-tested before delivery. This important step helps assure a water-tight motorhome.

Trained technicians in our dedicated customer service center provide modifications, modernization and additional services.

VEHICULAR & DRIVING AREA

- Radial Tires (7)
- Tilt Steering Wheel
- Cruise Control
- In-Dash Heat and Air Conditioning
- Full Panoramic Wrap-Around Tinted Windshield
- Panoraphic Windshield Wipers w/ Intermittent Speed Control
- Map Light
- Cigarette Lighter
- Reclining Bucket Seats w/Swivel
- Acrylic Sun Visors
- AM/FM Auto Reverse Cassette
- Wheel Covers
- Deluxe Exterior Mirrors with Convex
- Alternator Amps:
 - Chevrolet-105
 - Ford-130
 - Oshkosh-100
- Power Steering/Brakes
- Auxilliary Start System

GAS FEATURES

- Engine Oil Cooler
- Overdrive Automatic Transmission
- Electric Fuel Pump
- Parking Brake
- Transmission Oil Cooler

EXTERIOR FEATURES

- Full Fiberglass Front Cap

GAS MODELS

Two exciting floor plans - 32' and 34' - are available in your choice of Ford and Chevrolet chassis.

Every Dolphin bus boasts such amenities as a sound-dampening Ozite ceiling, cedar-lined closets, and space-saving pocket doors. Additional quality touches include raised panel oak frame cabinetry, plus oak trim throughout. All wood drawers feature ball bearing glides instead of short-lived plastic guides.

Spacious interiors have long been a hallmark of National RV products. Decorative mirrored doors in the lounge and bedroom contribute greatly to that feeling of openness.

Here's quality you'll appreciate from the moment you first experience it at your Dolphin dealership - and quality you'll value even more during years of contented ownership.

Elegant Master Suite is a special highlight of this modern scenic cruiser. The roomy 3-door wardrobe and night stand offers a dozen storage drawers. Access is gained through a side aisle for maximum use of the interior.

Custom Designed Galley is replete with Corian countertops and a dinette that comfortably seats four. Our quality porcelain sink features the convenience of a single-lever faucet. A pantry can be selected as an option.
